COFFEE! COFFEE! S MANUFACTURED AT M. KELLY'S
Southern Excelsior Coffee Mill. Raleigh, and is equal
to the best coffee. It is made of coffee, rye and chickory,
and is reasted in a cylinder by machinery, and therefore is
better purched than can be done by hand. Chickory is not
so well known in Dirie land, but in Europe they use it to
give a superior flavor to the coffee. In Germany they call
it courses, and here we call it decodation. it eagman, and here we call it dandalion. In England it is so highly appreciated that they lay a duty of two pounds two shillings sterling per bundred weight to protect the growers of it. We samex Prof Emmons' certificate to show that there is no humbug, but it is what it is repre-

sented to be:
"To Mr. Kelly, Sir:—I have tested and used the two samples of manufactured coffee—the labelled Jacs and Liquira. The first equals the Rio coffee of the shops, and seems to be equally good with that kind. \* \* I am satisfied that they contain nothing which is injurious to the system, and may be economically and safely used as substitutes for coffee.

Example: system, and may be economically and safety used stitutes for coffee.

STOP THE THIEF!

ON SATURDAY MORNING LAST, A MAN calling himself W. J TERRY, bired from me a horse and buggy with the avowed object of going into the country for bis wife, with the pledge that he would return on Saturday night or Sunday morning. Said Terry has not returned, and I have learned that he did not go to the gentleman's house be said he was going to. I have no doubt he is a villain and may be a spy in the country. He was rather shabbily dressed, dark clothes, dark hair and black eyes, about 5 feet high and well built. The horse was a small roan, with his left hind leg white and somewhat sore from scratches. The buggy was black, straight body and considerably worn. I learn he took the road to Haywood or some other point in Chatham County. I will give \$25 for his apprehension and the delivery of the property to me.

of informing the public that they have established, and have now in operation in Raleigh, a manufactory of WOODEN SHOES, which they can confidently recommend as the cheapest shoes now manufactured, and also as an article which will prove valuable and lasting.—
Their shoes are made of gum and poplar wood, and are lined, and finished off with leather tops and ears. These shoes are lighter than leather brogans of the same number. They are impervious to water, and, while they will hast a long time, they will also keep the feet perfectly dry. They will be found very suitable for Railroad and field hands, and also for sentinels and soldiers who are much exposed. The poplar shoes are very light, and can be easily worn by any one.

any one.

The subscribers have also in operation, at their establishment, a machine for making SHOE LASTS; and they are turning out large quantities of this article so indispensable to shoemakers, at fair prices.

They are selling their shoes at \$1.75 per pair wholesals, and \$2 retail. Terms, cash on delivery.
